

PRODUCT

Peppermint Gelée Warm Wax

INGREDIENTS

- Polycyclopentadiene
- Paraffinum Liquidum
- Hydrogenated Castor Oil
- CI 77891
- CI 61565
- Echinacea Angustifolia Root Extract
- Parfum

HEALTH HAZARDS

Contains

Regulation (EC) No. 1272/2008
classification

Physical and chemical hazards: Not
classified as hazardous

Human health hazards: Not classified as
hazardous

Environmental hazards: Not classified as
hazardous

Directive 67/548 EEC or 1999/45 EC
classification:

Not classified as hazardous

The full text for hazard statements and R
phrases are provided in section 16.

Label elements (in accordance with
Regulation (EC) No. 1272//2008)

Pictogram(s): N/A

Signal word: N/A

Hazard statement(s): N/A

Precautionary statement(s): N/A

Supplemental label information (EU): N/A

Other hazards

None specified.

COMPOSITION/INFORMATION ON INGREDIENTS

Mixture

A mixture of synthetic resins, petroleum
based oils, dyes, plant extracts and
fragrance.

FIRST AID MEASURES

Description of first aid measures

Inhalation:

Remove victim to fresh air and keep at rest
in a position comfortable for breathing. Seek
medical advice if symptoms persist.

Skin contact:

Remove contaminated clothing and wash
affected are with soap and water.

Skin contact with hot wax:

Immediately immerse or flush the burned
area with large amounts of cold water for
as long as possible (at least 15 minutes)
to cool. Do not remove solidified material
from burned skin or contaminated clothing
as damaged skin can be torn easily. Keep
sterile by covering with clean cotton sheet
or gauze.

In case of skin irritation or rash, consult a
physician.

Eye contact:

Flush with water for at least 15 minutes,
keeping eyelids open. If irritation continues,
seek medical attention.

Eye contact with hot wax:

Do not open eyelids if covered with wax.
Immediately flush eyes with large amounts
of water for at least 15 minutes. Get
immediate medical attention.

Ingestion:

Seek immediate medical attention.

Most important symptoms and effects, both
acute and delayed

May cause eye irritation (e.g. redness, tears),
skin irritation (e.g. reddening, itching).

Indication of any immediate medical
attention and special treatment needed

Specific treatment:

First aid and treatment of symptoms.

FIREFIGHTING MEASURES

Extinguishing media

Use mist sprays, carbon dioxide or dry chemicals.

Special hazards arising from the substance or mixture

Incomplete combustion or high temperatures can produce acrid fumes.

Advice for firefighters

Wear chemical resistant protective clothing and breathing apparatus. If without risk, remove packages from exposure to fire.

Spray unopened containers with water to keep cool. Prevent solid or molten product and fire-fighting water from contaminating drains or water courses (cover drains).

ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Wear suitable protective gloves and clothing to prevent any contamination of skin, eyes and personal clothing.

Environmental procedures

Contain spill safely, if possible. Prevent from entering drains, watercourses and sewers.

Methods and material for containment and cleaning up

Contain spill with inert material such as sand, earth or vermiculite. Allow hot wax to cool. Collect and dispose of safely.

Reference to other sections

Refer to section 8 for further details on personal precautions, protective equipment and emergency procedures.

Refer to section 13 for further disposal details.

HANDLING AND STORAGE

Precautions for safe handling

Protective measures:

Handle in accordance with good industrial hygiene and safety.

Measures to prevent fires: Keep away from sources of ignition.

Measures to prevent the environment:

Protect shafts and sewers from entry of the product.

Advice on general occupational hygiene:

Avoid contact with skin, eyes and clothes.

Conditions for safety storage, including any incompatibilities

Keep in original containers, tightly sealed and in a well-ventilated area. Store away from heat and direct sunlight.

Specific end use(s)

Recommendations: Observe instructions of use.

EXPOSURE CONTROLS/PERSONAL PROTECTION

Control parameters

Exposure limits, paraffin fumes: 2mg/m³ 8 hour TWA

Exposure controls

Personal protection:

Respiratory protection:

Avoid, as far as is reasonable practical, inhalation of vapour, mists or fumes generated during use and use in a well-ventilated area.

Skin protection:

Wear suitable gloves and suitable protective work clothing. After contact with skin, wash immediately with soap and water.

Eye protection:

Wear suitable safety glasses.

PHYSICAL AND CHEMICAL PROPERTIES

Information on basic physical and chemical properties

Appearance: Various, Semi Solid

Odour: Characteristic

Softening point (°C): 40/50

Boiling point/range (°C): >250

Congeaing point (°C): N/A

Flash point (ASTM D 93) (°C): >250

Autoignition point (°C): Not determined

Density at 20°C (g/cm³): Approx. 0.9

Solubility in water (% by weight): Insoluble

Note: These are typical values and are not intended as a specification.

Other information

None specified.

STABILITY AND REACTIVITY

Reactivity

No specific test data related to reactivity available for this product. Not expected to be particularly reactive under normal circumstances and conditions of use.

Chemical stability

Chemically stable under normal temperatures, recommended conditions of storage and use.

Possibility of hazardous reactions

No hazardous reaction when handled and stored according to provisions. May react with oxidisers.

Conditions to avoid

Avoid contact with strong acids and oxidising agents.

Incompatible materials

Avoid contact with strong acids and oxidising agents.

Hazardous decomposition products

Thermal decomposition can produce carbon monoxide, organic acids, aldehydes, alcohols, irritating vapours and smoke.

TOXICOLOGICAL INFORMATION

Information on toxicological effects

Acute toxicity

No data available.

Skin corrosion/irritation

No data available.

Serious eye damage/irritation

No data available.

Respiratory or skin sensitisation

No data available.

Germ cell mutation

No data available.

Carcinogenicity

No data available.

Reproductive toxicity

No data available.

STOT-single exposure

No data available.

STOT-repeated exposure

No data available.

Other potential health effects

Inhalation

May be harmful.

Ingestion

May be harmful if swallowed.

Eye Irritation

May cause eye irritation.

Skin irritation

May cause skin irritation or rash. May cause skin dryness and cracking through repeated exposure.

ECOLOGICAL INFORMATION

Toxicity

Non-toxic in normal conditions of use.

Persistence and degradability

Not expected to release persistent compounds.

Bioaccumulative potential

Not expected to bioaccumulate.

Mobility in soil

Immobile.

Results of PBT and vPvB assessment

No data available.

Other adverse effects

No data available.

DISPOSAL CONSIDERATIONS

Waste treatment methods

Dispose of as controlled waste, via a licensed contractor, ensuring that all national and local authority requirements are complied with.

Packaging should also be disposed of as controlled waste according to local authority guidelines.

TRANSPORT INFORMATION

UN number

Not applicable.

UN proper shipping name

Not applicable.

Transport hazard class(es)

Not applicable.

Packing group

Not applicable.

Environmental hazards

IMDG: Not classified as hazardous.

ADR/RID: Not classified as hazardous.

IATA: Not classified as hazardous.

Special precautions for user

Avoid elevated temperatures for prolonged periods of time. Avoid contact with strong oxidisers.

Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code

Not applicable.

REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

- EU legislation: Regulation (EC) No. 1272/2008 (CLP) and Regulation (EC) No. 1907/2006 (REACH)
- Other regulations: Health & Safety at Work etc. Act 1974
- Control of Substances Hazardous to Health Regulations 2002 (as amended)
- Chemicals (Hazard Information and Packaging for Supply) Regulations 2009
- Classification, Labelling and Packaging of Substances and Mixtures Regulations 2008 (as amended)
- EH40/2005 Workplace Exposure Limits (as amended)
- Environmental Protection Act 1990
- Hazardous Waste Regulations 2005 (as amended)

Chemical safety assessment

No data available.

OTHER INFORMATION

SDS Revision

This data sheet was produced to meet the requirements of Regulation (EC) No. 1907/2006 and Regulation (EC) No. 1272/2008.

Regulation (EC) No. 1272/2008
Classification

This mixture has been classified using methods as described in Article 9(4) of Regulation (EC) No 1272/2008.

Further information

This information is based on our current level of knowledge and relates to the product in the state in which it is delivered. It is intended to describe our product from the point of view of safety requirements and is not intended to guarantee any particular property.

Our products are intended for sale to Industrial and Commercial Customers. We request that Customers inspect and test our products before use and satisfy themselves as to the contents and suitability. Nothing herein shall constitute any other warranty, express or implied.

The toxicological data herein is correct at the time of issue.
